著者: Papillon, Nick

出版者: Trans-Atlantic Publications, Inc.;

出版时间: 2003-6

装帧: Pap

isbn: 9781854862266

In this updated edition, the author provides a guide for newcomers and others

interested in new developments in the design and manufacture of radio controlled helicopters. This handy book offers all the essential information and fact you need to make the right decisions, taking you through all the stages-from the choice of model and radio to your first flights and finally to basic aerobatics. Contents include: Advantages of flying helicopters. Where Do I begin? Choosing the model. All about engines. Radio systems. Finding your flying sites. Accessories and training aides. Building the model. Installing the radio. Setting up the model. Before your first flights. The day arrives. Hovering, circuits & simple aerobatics. Routine maintenance. After the crash. Scale models. Conclusions.
