出版者:Yale University Press

出版时间:1993-1-27

装帧:Paperback

isbn:9780300053708

How has the concept of wild nature changed over the millennia? And what have been the environmental consequences? In a work of intellectual history, the author presents an examination of humankind's relationship with the natural world through the ages - from early teomism through Egyptian, Greco-Roman and Judeo-Christian supernaturalism to the rise of materialism and modernism.
