## 作者介绍:

Darryl Anka is an internationally known channeller, speaker and author with sales of over 300,000 books in Japan.

Anka claims that he began to communicate, through trance-channeling, with an extra-terrestrial entity called Bashar in 1983. He describes Bashar as existing in a parallel reality, in a time frame that we perceive as the future. The monologues and dialogues with Bashar cover a wide range of topics including human psychology, planetary evolution, metaphysics, and extra-terrestrials. Occasionally, Anka will act as a guest speaker in conferences related to issues such as ET contact. Anka has also channeled other entities, and the entity Bashar has also been channeled by other mediums.

Anka appeared in the 2008 documentary Tuning In alongside other notable channels such as Lee Carroll.

Anka's channeling sessions, private and public, are usually recorded and many have been compiled into various books and audio-visual material. His first book, The New Metaphysics, includes Q&A sessions with Margot Chandler, Ph.D., and was edited by Rosemarie Hopf-Weichel, Ph.D.
