Author of the international bestseller, "Pyramid Power," Max Toth is one of the world's foremost researchers on pyramids and pyramid energies. In this companion book, he explores the Great Pyramid's role as an instrument of prophecy. Led by the prophetic evidence concealed for centuries within the Pyramid's stones, he takes us on a timeless journey that embraces past, present, and future. He shows us how the prophecies have compared to those of Edgar Cayce and Nostradamus, how they predicted World Wars I and II, and how they foretold Christ's messianic mission twenty-two centuries before his birth.
