装帧:Pap

isbn:9781878348302

The standard fish ID reference for underwater naturalists and marine scientists since 1989 just got better! This enlarged 3rd edition has grown by 20 percent including the addition of over 100 exciting new fish species. The scientifically updated text now boasts 825 classic marine life photographs of 600 common and rare reef fish species. The easy to use, quick-reference format designed for divers makes it a snap to identify the myriad fishes that inhabit the waters of Florida, the Caribbean, Bahamas and now Brazil! It features a new durable, cloth-stitched flexi-binding that folds flat for easy use and water-repellent plastic covers.
