From prairies to peaktops, Colorado attracts an intriguing mix of birds, from Mountain Plovers to Rosy-Finches and Lazuli Buntings to Black Swifts. Birders from all over the country visit Colorado to see western and prairie specialties in scenic splendor. Birding Colorado lists likely birds at each site. A 15-page Appendix lists status and distribution of all the species recorded in the state. Take this book along as you visit treeless prairies in Pawnee National Grassland; cottonwood stream bottoms along the major rivers that rise in Colorado (North and South Platte, Republican, Arkansas, Rio Grande, San Juan, Colorado, and Yampa/Green); pinyon-clad mesas of southeastern and western Colorado; chasms, mesas, and mountains in four national parks (Black Canyon, Great Sand Dunes, Mesa Verde, and Rocky Mountain); marshes, ponds, and streams in four national wildlife refuges (Arapaho, Browns Park, Alamosa, and Monte Vista); incomparable mountain, mesa, and prairie highways and byways. Or simply use it for a day or two during a ski vacation, family outing, or urban visit.
