isbn:9780915035304

Through his research over the years, Dr Supalla, who is deaf, has identified the name sign system which has a pattern to forming and giving name signs within the deaf

communities. The need for a formal name sign book has risen dramatically with the increasing use of inappropriate name signs. There is a comprehensive guide and a list of over 500 name signs to help people to select appropriate name signs according to the American Sign Language (ASL) rules of formation and use. The book is written to be both informative and entertaining, and Dr Supalla compels all who are interested to become more aware of deaf people's intriguing signed language and culture, both dating back to the early years of deaf education.
