In his groundbreaking book, The Mozart Effect®, Don Campbell revealed the enormous healing powers of classical music. Now he shows you how to help the children in your life experience the same benefits. You don't have to be an expert on classical music to use this wise and compassionate book. Focusing each chapter on a particular age -- from prenatal through age ten -- Don Campbell explains how music is the perfect tool to improve children's language, movement, and social skills at home, school, and play. He presents dynamic, inventive ways to invigorate a child's imagination, and supplies simple exercises, musical menus, and entertaining games that will improve your child's memory. At once practical and profound, The Mozart Effect® for Children is an invaluable resource for all parents and educators who want to help their children imagine, achieve, and grow in every aspect of their lives.
