Duke Ellington is universally recognized as one of the towering figures of 20th-century music, both a brilliant composer and one of the preeminent musicians in jazz history. In The Duke Ellington Reader, Mark Tucker offers the first historical anthology of writings about this major African-American musician. The volume includes over a hundred selections - interviews, critical essays, reviews, memoirs, and over a dozen writings by Ellington himself - with generous introductions and annotations for each selection provided by the editor. The result is a unique sourcebook that illuminates Ellington's work and reveals the profound impact his music has made on listeners over the years.
