Two Spirit People is the first-ever look at social science research exploration into the lives of American Indian lesbian women and gay men. Editor Lester B. Brown posits six gender styles in traditional American Indian culture: men and women, not-men and not-women (persons of one biological sex assuming the identity of the opposite sex in some form), and gays and lesbians. He brings together chapters that emphasize American Indian spirituality, present new perspectives, and provide readers with a beginning understanding of the place of lesbian, gay, and bisexual Indians within American Indian culture and within American society. This beginning will help you understand these unique people and the special challenges and multiple prejudices they face.
