著者:DeLoach, Ned/ Humann, Paul (PHT)

出版者:New World Pubns Inc

出版时间:1999-1

装帧:Pap

isbn:9781878348289

This groundbreaking text offers underwater naturalists a detailed overview of what is presently known about the behaviour and ecology of reef fishes inhabiting the waters of Florida, the Caribbean and Bahamas. It also serves as a companion reference to our popular Reef Fish Identification. The enjoyable fact-filled text is lavishly illustrated with 475 marine life photos, many capturing spectacular fish behaviours never before documented. Readers not only learn about the nature of the fishes sighted on every reef dive, but also learn when and where to observe the dramatic behaviours.
