Mitch, doyen of the London fetish scene, flees his hollow marriage for Thailand, paradise of easy sex. Enchanted by promiscuous, Thai girls and ladyboys, he lives a fantasy of erotic adventures, introduces willing partners to deviance, and opens a go-go bar, with thrashing on the menu. Sucked into a vortex of insatiable desire, transvestism and corruption, he finds that behind the smiling masks, perversion is reality. But what is Mitch's own reality? A searing exposure of sado-masochism and shifting identity, "Thai Honey" begins where "Platform" leaves off.
