isbn:9780916390969

The poems vary widely in length, subject, and setting (from Mayo, to Tuscany, to Japan). With a Zen-like grace, even the briefest poems hurdle logical gaps and sidestep reason to get to truths. The poet's acute vision is directed outward, and we know him only through the light he casts on the world's things as he holds them in loving, elegiac frames.
