isbn:9780875168333

Besides documenting the path of the Ark from the days of Moses to historical settings in Egypt, King Solomon's Temple, Ethiopia, and Alexandria, Henrietta Bernstein links each step with accounts of Christ, Mary Magdalene, the Cathars, Rennes-le-Chateau, the Knights Templars, Glastonbury, and the Middle Ages. What separates this book are the many details of numerous hidden symbols in America, where countless signs, secret codes, and sacred geometric clues are strategically placed throughout Washington DC, the setting for the upcoming book from Dan Brown.
