著者: Buchanan, James M.

出版者: Liberty Fund

出版时间: 2002-6

装帧: Pap

isbn: 9780865972520

This volume presents a comprehensive index to the entire series of 'The Collected Works of James M Buchanan'. Included is an annotated copy of the entire curriculum vitae, indicating in which volume in the series the various items appear and, correspondingly, those items that have been omitted. As the editors observe, "This is a series that no serious scholar of public choice theory, public economics, or contemporary political theory will want to be without. It is a series that will also appeal to the general student of liberty, for Buchanan has -- perhaps more than any other contemporary scholar -- helped us to view politics without the romantic gloss that characterises so much normative political theory and that slips unthinkingly into so much popular commentary. Buchanan has been a resolute defender of 'the ideal of a society of free and responsible individuals,' and has been a painstaking analyst of the institutional structure that might best support such a society. Buchanan stands with von Mises, Hayek, Popper, and Friedman as one of the great twentieth-century scholars of liberty."
