A VIRGIN'S GUIDE TO EVERYTHING is a friendly, down-to-earth advice book that tells you the practicalities of doing almost everything right the first time. A lifestyle 'how to' for 18- 34 year old women, it tells young women everything they need to know - from what to do at your first 4-star restaurant, to what to do on your first time dating a divorcee. The book is organised into chapters on dating, travel, work, spirits and sustenance, entertaining, babies and hubbies, health and fitness, arts and culture, money and fashion. Interspersed throughout is advice from women who are experts in their fields and each chapter closes with a summary of tips. Written in a tone that is irresistibly cheeky and fun, the book is 2-colour and has hip, cool illustrations.
