出版者:Dover Publications Inc.

出版时间:2003-3-28

装帧:Paperback

isbn:9780486200552

Indispensable guide to one of the most influential thought systems of our century. Stressing the work of Heidegger and Sartre, it offers a careful and objective examination of the existentialist position and values -- freedom of choice, individual dignity, personal love, creative effort -- and answers to the eternal questions of the human condition.

评论

非常不错的一本存在主义简介，文笔要比irrational man流畅许多。存在主义的几个主要问题都有所提及(authenticity, intensity, otherness etc.)，并且选取了比较的叙述方式。
