This is a compact, current, easy-to-use field guide that identifies 336 species of birds that have been reported from in and near the Blue Ridge in North Carolina and Virginia and the Great Smoky Mountains of North Carolina and Tennessee. The guide applies to one of the most beautiful and biologically rich regions of eastern North America, it includes only those species of birds that will be found in the region, and it can be used with comfort, confidence, and pleasure by casual and beginning observers as well as those with more extensive experience.
