Prowling the edges of science with insight and sensitivity, Lyall Watson maintains that there is a truth to be found behind every seemingly impossible legend. The best-selling author of *Supernature* and *Gifts of Unknown Things*, Watson takes us on a journey through prehistoric burial sites on the beaches of South Africa, ancient ritual iron mines in Swaziland, and present-day villages in Indonesia and New Guinea inhabited by man-eating dragons and headhunters. In these and other extraordinary travels we encounter phenomenon that defy traditional scientific explanation. Watson looks beyond the scientific "facts" and helps us - through his own remarkable discoveries - to see the poetry and wonder of the natural world.
