出版时间:1958-6

装帧:Pap

isbn:9780804703413

A new and manageable edition of Locke has been badly needed. Professor Ramsey's judicious editing of these important texts fills the need and greatly enhances the value of the texts for the modern reader. Included are "The Reasonableness of Christianity, "A Discourse on Miracles, "A Further Note on Miracles, and some passages from "A Third letter concerning Toleration. Each work is prefaced by an introduction, giving the background of its writing and indicating its contemporary significance.
