This engaging book presents 101 things individuals can do to help both individual birds and bird populations as a whole. It also explains exactly how these actions can make a difference--what wrongs they help correct and what improvements they can bring about. Bird-friendly (and environment-friendly) practices are described in detail: things anyone can do around the home and garden, at work, at the store, in their community, in the outdoors, and on the road. Anyone who appreciates wild birds knows that the animals need our help. This timely guide shows bird-lovers what they can do.
