isbn:9780884003106

Compiled by German linguists with over twenty years of experience in international business, this dictionary reflects all the current usages of German business terminology, identified by specific categories. Business language is in a state of flux all over the world. This is due to the fast-changing global business scene, not only in Europe but also in Asia and the rest of the world. The near-total dependence of business today on digital data and the Internet is another major factor in the transformation of business terminology. The main virtue of this dictionary is the fact that it provides current, twenty-first century business terms and definitions, including hundreds of computer-related terms.
