In sophisticated, uninhibited language, Sextrology candidly explores each sign of the zodiac through a unique, wholly original astrological philosophy. In this highly entertaining and illuminating treatise, Starsky + Cox uncover the naked truth behind each of the zodiac's twenty-four gender signs. Featuring brainy, frank, and fearless

discussions that are sure to feed the head and tickle the funny bone if not other parts of the anatomy, the authors examine the sexual makeup of each sign in titillating detail -- male, female, straight, and gay. Within each profile, you'll find three parts: Sign + Mind -- offers a comprehensive psychological reading, drawing from wide-ranging sources, ancient and modern Body + Soul -- exposes the individual's physical attributes from head to toe, as well as his or her mode of expression Sex + Sexuality -- details sexual behavior and attitudes, both inside and outside the bedroom Finally, compatibility sections evaluate all possible cosmic couplings, straight and gay. From fantasies to favorite positions, erogenous zones to emotional needs, Sextrology will help you better comprehend your and others' sexual character, improve your understanding of relationship roles, and find out what to expect from the new person in your life. No stone is left unturned in this intelligent and enlightening investigation of sex and the sexes that will once again have people asking, "What's your sign?"
