出版时间:1997-5-31

装帧:Paperback

isbn:9780802079237

Since its appearance in 1990, The Spenser Encyclopedia has become the reference

book for scholarship on Edmund Spenser (1552-99), offering a detailed, literary guide to his life, works, and influence. Comprehensive in scope and international in outlook, the encyclopedia contains some 700 entries by 422 contributors in 20 countries. An index provides access to material not obvious at first glance through the main body of the book, and all works cited more than once in the encyclopedia are included in an extensive bibliography. A brief historical preface and a guide to using the encyclopedia are included. This paperback edition brings this tool within range of all Spenser scholars.
