

A Handbook of Routine Urinalysis

[A Handbook of Routine Urinalysis_ 下载链接1](#)

著者:Graff, L.

出版者:Lippincott Williams & Wilkins

出版时间:1983-1

装帧:Pap

isbn:9780397521111

This practical handbook contains everything its user needs to know when performing

routine urinalyses. Comprehensive in scope, the book discusses the formation of urine, its constituents and properties in both health and disease, the origin of these constituents, and the principles of urinalysis. It provides explanations of abnormal test results together with several procedures that can be used as alternative or confirmatory tests.
