Designed to provide a step-by-step approach to the teaching of music for each grade level from one to six. Features a collection of more than 200 songs-many of which are new to the Third Edition-organized precisely in the sequence of the Kodaly Method. It presents a highly sequential music program in which singing, moving, listening, musical reading and writing, improvising and composing are the means through which children develop skills and acquire knowledge about melody, harmony, rhythm, form, tempo, timbre, and dynamics.
