New technologies are making information more fluid, but what does this mean for information providers? Without a doubt, it means that traditional roles are evolving and that the task of providing information demands greater expertise in exploiting new technologies and navigating their uncharted ebbs and flows of information. The Association for Library Collections & Technical Services (ALCTS), a division of the American Library Association, offers a host of well-integrated and forward-looking services to help you find your way through these changes. It is a leader in the development of principles, standards, and best practices for creating, collecting, organizing, delivering, and preserving information resources in all forms. It offers educational, research, and professional service opportunities. And it is committed to quality information, universal access, collaboration, and lifelong learning.
