isbn:9780918172259

Two Guarani shamans from the rain forest of Paraguay tell their life stories, revealing how the spirits of the forest taught them to be shamans in service to their communities. The accompanying CD features their own voices singing healing songs and offering sacred prayers. Illustrated with colour photos, Guarani children's drawings, and rare images of their most sacred objects, this book provides primary documentation of shamanistic practice never revealed before.
