Dogs don't know deceit, dishonesty or ingratitude. They're loyal, loving, don't hold grudges and give undivided attention and affection. When looking for a role model for a healthy and happy relationship, who better to turn to than the family dog? DogSense is the study of human relationships through the eyes of the family pooch. Humorous and entertaining photos of our furry friends are accompanied by gentle reminders of how we can keep our own relationships healthy and happy. For dog lovers everywhere, this book is not only a celebration of canine splendor but a wonderful primer on how being a little bit more like our dogs can make our human relationships that much better.
