Cat expert Arden Moore provides answers to more than 100 questions from cat owners,

revealing even the quirkiest feline trait for what it is: a clear, concise form of communication - provided you know how to interpret it. She deciphers even the most vexing feline foibles - scratching, howling, bed-hogging, leg rubbing, pillow peeing, and keyboard prancing - and provides practical advice on keeping your cat safe, healthy, and happy. The book is enhanced with advice from veterinarians, feline success stories, cat trivia, and handy tip boxes. Whether your cat is personable, pernickety, or downright perplexing, "The Cat Behavior Answer Book" is the only guide you'll ever need to enjoy a stronger, better relationship with your feline friend.
