Why do puppies sometimes lie on their backs when approached? Why do they sleep in a pile? Why do puppies have that special "puppy smell"? Why are some puppies runts? Few things can cause as much head scratching as the peculiar behavior and characteristics of a new puppy, and this book aims to answer all of the questions new dog owners wonder about their new little charge. Illustrated with pencil drawings, *Why Puppies Do That* is lighthearted, informative, and as fun as a new puppy.
