Since cats have a natural talent for looking better than they feel, it may surprise owners to learn that felines are considered "senior" at 7 and "geriatric" at 14. This invaluable guide discusses all issues to do with caring for an older cat and how to assess the well-being of a beloved pet, including end-of-life questions - such as euthanasia and hospice care - which are discussed with compassion. Full of heart-warming case studies, this is a book for everyone who has the good fortune to live with a cat.
