Find out just how smart, affectionate, and fascinating birds can be, with clicker training. * Depressed birds regain their joy in life

- * One-person birds warm up to other family members
- * Scared birds learn to cooperate with simple care such as nail clipping
- * Undesirable behaviors such as screaming and biting fade away
- * Baby birds grow up to be outstanding companions
- * Rescued and older birds learn to trust, love and play
- * Birds win new friends with appealing tricks and games
