If you want to add a new dimension to owning a reptile or amphibian, you may want to try to design and build your own terrarium. With more than 100 full-color photos, this book provides basic carpentry instructions, along with advice on using screen material, glass panels, rocks, logs and plants. Whether you want to simulate a scaled down replica of a desert, rain forest, semiaquatic or woodland enviroment, you will find great

ideas in these pages.
