Little Dogs -- They're welcome in the finest restaurants. . . . They inspire haute couture. . . . They fit inside designer handbags. This glorious photographic celebration of diminutive dogs is complemented by witty musings from dog lovers the world over—everyone from Edith Wharton to Walt Whitman to Willie Mays. Perfect for anyone with a soft spot for pets with personality—whether they be Dachshund, Schnauzer, Terrier, or Pekinese—Little Dogs proves one thing for certain: going to the dogs (chic, pampered, devastatingly beautiful dogs) has never looked so good.

Tim Blanks is a fashion journalist and contributing editor at Style.com. He writes for the New York Times, the Daily Telegraph Magazine, the Financial Times, and Vogue. He lives in London.
