The retrieve is one of the most difficult skills for most dogs to master in competitive obedience. It is difficult because it involves a long series of steps that the dog must

learn in order to complete the exercise successfully. More and more trainers are realizing that teaching a complex series of behaviors like this is most easily done through the use of clicker training. The Clicker Retiever teaches you step-by-step how to clicker train your dog to do a solid, enthusiastic and reliable retrieve. Learning no-force techniques builds trust between you and your dog, makes training more enjoyable for both of you, and sets you up for life-long training success built on scientific principles, respect and fun. The Clicked Retriever also shows you how to apply retrieving skills to other activities such as flyball and service dog training.
