isbn:9781405133234

David Braddon-Mitchell and Frank Jackson's popular introduction to philosophy of mind and cognition is now available in a fully revised and updated edition. * Ensures that the most recent developments in the philosophy of mind and cognitive science are brought together into a coherent, accessible whole. * Revisions respond to feedback from students and teachers and make the volume even more useful for courses. * New material includes: a section on Descartes' famous objection to materialism; extended treatment of connectionism; coverage of the view that psychology is autonomous; fuller discussion of recent debates over phenomenal experience; and much more.

评论

David Chalmers的痕迹比较重，对一些问题的讨论过于简化，不太合适初学者，比较适合对心灵哲学有一定了解的人看看。
