In this work, eleven pairs of newly commissioned essays face off on opposite sides of

fundamental problems in current theories of knowledge. This work brings together fresh debates on eleven of the most controversial issues in epistemology. Questions addressed include: Is knowledge contextual? Can skepticism be refuted? Can beliefs be justified through coherence alone? And, is justified belief responsible belief? Lively debate format sharply defines the issues, and paves the way for further discussion. This work will serve as an accessible introduction to the major topics in contemporary epistemology, whilst also capturing the imagination of professional philosophers.

这套Contemporary

Debates真是贴心。对我这种门外的人来讲，这套都写的很清晰，又能让人多琢磨一会儿，就很棒了。

Klein那篇关于infinetism的不错的，虽然结论太弱，但是对于无穷倒退问题的历史解决方案的驳斥还是很到位的。但就是同一篇论文在不同的刊物和文集里发三次不知是个什么意思。
