著者:Bucke, Richard Maurice

出版者:Ingram Pub Services

出版时间:2000-12

装帧:Pap

isbn:9781557094995

This classic book on mystical experience was originally published in 1901. Bucke's personal experience with divine illumination led to his theory that we are witnessing a continued psychical revolution of the individual. He believed that individuals like Buddha, Jesus, Spinoza, Whitman, and others were the forerunners of the beings who

will eventually inhabit the earth.
