isbn:9780131831032

For undergraduate courses in Death and Dying in departments of Religious Studies, Philosophy, Sociology, and Psychology departments. Applying a multi-disciplinary approach to the study of death and dying, this text is a collection of originally written

introductions, primary readings, study questions, small group exercises, relevant website links and suggestions for further research. It gathers together current and classical statements on death and dying from religious, philosophical, psychological, ethical, and practical perspectives.
