

The Philosophy of Marx

[The Philosophy of Marx_ 下载链接1](#)

著者:Etienne Balibar

出版者:Verso

出版时间:2007-9-17

装帧:Paperback

isbn:9781844671878

This is the only guide to Marx that the student and scholar will need. This is an excellent introduction to Marx's thought from a major French philosopher. Providing a lucid, succinct, and accessible introduction to Marx and his key followers, complete with pedagogical information for the student, Balibar makes the most difficult areas of theory easy to understand. Balibar examines all the key areas of Marx's writings in their wider historical and theoretical context including the concepts of class struggle, ideology, humanism, progress, determinism, commodity fetishism, and the state. Suitable for the student and scholar in the humanities and social sciences, this will become the standard guide to Marx.

书评

建议学外语出身的，而非学马列或哲学出身的，慎入马列及相关著作翻译这一行！
而且译者应该是王吉会，此处标注有误！
