Western Philosophy: An Anthology provides the most comprehensive and authoritative survey of the Western philosophical tradition from ancient Greece to the leading

philosophers of today. Features substantial and carefully chosen excerpts from all the greats of philosophy, arranged thematically and chronologically. Readings are introduced and linked together by a lucid philosophical commentary which guides the reader through the key arguments. Embraces all the major subfields of philosophy: theory of knowledge and metaphysics, philosophy of mind, religion and science, moral philosophy (theoretical and applied), political theory, and aesthetics. Updated edition now includes additional contemporary readings in each section. Augmented by two completely new sections on logic and language, and philosophy and the meaning of life.

这种书很难全部翻完。

Cottingham的文学功底很好，不过这本不太适合作为入门读物，私货比较多。他亲叔本华，并认为仅仅是因为他道出了音乐与自我的关系，就构成一看作为意志与表象的世界的理由。同时他也毫不掩饰对海德格尔繁冗的反感。

Genuinely demonstrates the flowing of influential philosophical ideas among several predominant fields.
