With death looming, Jacques Derrida, the world's most famous philosopher-known as the father of "deconstruction"-sat down with journalist Jean Birnbaum of the French daily Le Monde. They revisited his life's work and his impending death in a long, surprisingly accessible, and moving final interview.

Sometimes called "obscure" and branded "abstruse" by his critics, the Derrida found in this book is open and engaging, reflecting on a long career challenging important tenets of European philosophy from Plato to Marx.

The contemporary meaning of Derrida's work is also examined, including a discussion of his many political activities. But, as Derrida says, "To philosophize is to learn to die"; as such, this philosophical discussion turns to the realities of his imminent death-including life with a fatal cancer. In the end, this interview remains a touching final look at a long and distinguished career.
