This book has been specifically designed to support the student of the IB Diploma Programme in Theory of Knowledge. It will stimulate students to think about learning

and knowledge from their own and from others' perspectives in a way that crosses disciplines and cultures. It will encourage reflection, discussion, critical thinking, and awareness of the ways in which knowledge is constructed, and will lead students to recognize the implications of knowledge for issues of global concern. The book is rooted in classroom experience and provides class activities and supporting material for the whole of the TOK course.

Theory Of Knowledge

真是一本好书，看到了在我十年前本该看到的书，真的百感交集中外教育的不同。What is knowledge? Is it synonymous to common sense, belief or even perceived truth?
