出版时间:2007-05-28

装帧:Paperback

isbn:9780521540728

In Being and Time Heidegger gives an account of the distinctive features of human existence, in an attempt to answer the question of the meaning of being. He finds that underlying all of these features is what he calls 'original time'. In this clear and straightforward introduction to the text, Paul Gerner takes the reader through the work, examining its detail and explaining the sometimes difficult language which Heidegger uses. The topics which he covers include being-in-the-world, being-with, thrownness and projection, truth, authenticity, time and being, and historicity. His book makes Being and Time accessible to students in a way that conveys the essence of Heidegger's project and remains true to what is distinctive about his thinking.

评论

这本书适合海德格尔的初学者，特别适合读不懂他梦呓般句式的读者。但是从深度上，作为导读，你自然不能强求。和Dreyfus相比，缺乏独创的深度，和Taylor Carmam比起来视野也狭窄了许多喔。至于Stephen Mulhall那本还没读。不过以上均不妨碍这本给初学者

intro

還算不錯的介紹與解釋。

较浅显

简单易懂！发现Cambridge introduction to key philosophical texts都超棒耶！
