装帧:Paperback

isbn:9780813343518

Philosophy of Social Science provides a tightly argued yet accessible introduction to the philosophical foundations of the human sciences, including economics, anthropology, sociology, political science, psychology, history, and the disciplines emerging at the intersections of these subjects with biology. Philosophy is unavoidable for social scientists because the choices they make in their disciplines force them to take sides on philosophical matters. Conversely, the philosophy of social science is equally necessary for philosophers since the social sciences must inform their understanding of human action, norms, and social institutions. The third edition retains an illuminating interpretation of the enduring relations between the conduct of inquiry in the social sciences and the fundamental problems of philosophy, with accessible considerations of positivism, European philosophy of history, causation, statistical laws, quantitative models, and postempiricist social science, and it reflects developments in social research over the past two decades that have informed debate in the philosophy of social science.

## 评论

还不错。有启发，但欠透彻。

-----  
书写得一般，有点罗嗦...但是受了题材和导论性质的限制...可以理解...很多point还是不错的~

-----  
期待自己能懂点基本概念也是我太天真。。

-----  
抛砖引玉

-----  
写的真的很一般，就是讲了很多科学哲学的一些概念，想往社会科学上套，但是是硬套，没意思，作者社会科学眼光也很局限，大概只懂经济学，人类学、社会学、心理学、流行病学、历史学理解的很皮毛
