出版时间:2006-09-01

装帧:Paperback

isbn:9780674023642

"Fairness versus Welfare" poses a bold challenge to contemporary moral philosophy by showing that most moral principles conflict more sharply with welfare than is generally recognized. In particular, the authors demonstrate that all principles that are not based exclusively on welfare will sometimes favour policies under which literally everyone would be worse off.

评论

ch.2 主要论点是福利经济学的分析方法好于基于公平的分析方法 individual well-being至上；遣词不复杂但是有点难理解==

-----  
读了半本多，作者反复强调福利尺度好于传统的公平尺度，并且把几乎所有可能的因素都纳入福利分析，是一种很洗脑的思维方式（不是说不好）。但实际如何操作不清楚，有空再接着读。
