Power to the People examines the teaching of political philosophy in what is taken to be skeptical times. Author Avner de-Shalit encourages political philosophers to remain committed to the analytical achievements of political philosophy while also revising and improving the teachings of the discipline to be more in tune with the demands of

democratic society. Using highly accessible language, de-Shalit argues that distinguishing political philosophy from politics is methodologically and normatively wrong; that political philosophy can empower its students; and that political philosophy should be democraticized. De-Shalit's radical and provocative theory will fascinate anyone involved in politics, philosophy, and education.
