The Leviathan marked the beginning of modern political philosophy, and is the most famous single work in English political thought. This guidebook offers a clear, accessible and judicious account of Hobbes, as a philosopher and theorist of state, and guides the reader through the major interpretations of the Leviathan. The book covers discussions of epistemology, scepticism, law, right and the state of nature, and

the main problems of contract, authority and representation, legality, liberty, tolerance, reason and rhetoric.

其实比较适合当工具书...

挺工整的导论书籍。不按利维坦顺序而按照一个个主题梳理霍布斯的论证以及后世的解读，譬如自然状态是否真实存在，封面图的意思（中译本没有保留封面和题词挺可惜的），第一部分和后几部分的关系，对利维坦的博弈论解读等……推荐阅读的文献尤其受用。

从代表制开始脱线……一般般
