The Universal Exception is the second volume of the selected writings of Slavoj Žižek—one of the most provocative and inspiring writers on culture at work today. Bringing together a broad selection of Žižek's major writings on politics, The Universal Exception showcases Žižek's formidable range of interests and his style. The book includes his interventions on such world political events as the terrorist attacks of 11 September 2001 and the American-led invasion of Iraq, his celebration of the revolutionary potential of Stalinism, and his critique of Third Way politics. Together with *Interrogating the Real*, the first volume of Žižek's selected writings, this collection offers a superb introduction to the work of this prolific, controversial and vastly entertaining cultural commentator.
